

Selecting caBIG Standards

- ◆ External Data Standards Survey as reference
- ◆ Process for selection – follow a standards review authority; VCDE selection; review and approval process
- ◆ IT-enabling standards for caBIG community – registration in caDSR?
- ◆ What does it mean to apply the standards?

caBIG Standards Conformance

- ◆ How will standards conformance be evaluated?
 - Use of CDEs from caDSR (any CDE? Those with a “standard” registration status?)
 - Use of standard exchange/message formats
 - Use of standard vocabulary sets
- ◆ How do standards apply?
 - In information collection (forms)
 - In UML models
 - In database design/data dictionaries
 - In data exchanges/ output formats?
 - In documentation (data dictionaries)
